

2026 Seattle GNU/Linux Conference

PARTNERSHIP & SPONSOR PROSPECTUS

WHEN

Friday and Saturday, November 6 and 7, 2026

WHERE

The Husky Union Building (HUB) on the University of Washington campus in Seattle, WA

Celebrating its thirteenth year, SeaGL will be **hybrid**, returning for a fourth **in-person** year at the HUB, while maintaining an **online** experience for our community members around the globe.

WHAT

Founded in 2013, SeaGL (the *Seattle GNU/Linux Conference*) is a free—as in freedom and tea—grassroots technical summit dedicated to spreading awareness and knowledge about free / libre / open source software, hardware, and culture.

SeaGL strives to be welcoming, enjoyable, and informative for professional technologists, newcomers, enthusiasts, and all other users of free software, regardless of their background knowledge; providing a space to bridge these experiences and strengthen the free software movement through mentorship, collaboration, and community.

EXPECTED ATTENDANCE

Historically, we've grown to welcome **400+** attendees over the course of both Friday and Saturday. This year we hope a hybrid conference will make SeaGL accessible to many more!

ENTERPRISE AND NON-PROFIT EXHIBITORS

SeaGL has proudly worked with both enterprise and non-profit exhibitors every year. We will continue to make booth space available for both business and community partners. If you have any questions or suggestions about our sponsorship opportunities, please send an email to sponsor@seagl.org so we can follow up.

If your FLOSS project, nonprofit, or educational organization would like to exhibit at SeaGL, please send an email to partnerships@seagl.org telling us about your work, support, or outreach with the free / libre / open source community.

**** Exhibitor space is limited, so please contact us right away if you are interested in a table. We aim for 50% enterprise and 50% non-profit. ****

SPONSORSHIP OPTIONS

SeaGL depends on community support! We are interested in talking with you about creative ways to sponsor this year's event. If you would like to offer other financial support or would like to offer some type of in-kind support, please send an email to sponsor@seagl.org.

- Speaker Gift

HYBRID SeaGL EXPERIENCE

Our **goal** is to provide a first class experience for both in-person and online participants. However, our first attempt proved to stretch the all-volunteer staff too thin. Thus, we are currently planning to provide a full in-person experience and a progressively enhanced online experience, depending on volunteer availability.

In-person attendees will experience presentation rooms and an exhibitor hall during both conference days, and evening social activities on both Friday and Saturday night. The schedule will include flexible time for mingling and sharing ideas. We hope to attract enough sponsors enabling us to provide a wide variety of amenities such as: coffee, snacks, and childcare.

Virtual attendees will experience the conference portal we have been refining since 2020. This features on-demand two-way voice and video socialization, public text chat rooms, embedded presentation streams, and the ability to select a schedule. We hope to further develop interactions bridging the remote and in-person events, as volunteer hours allow.

Behind the scenes, we strive to utilize free / libre / open source software (FLOSS) wherever possible. Our portal is developed on-top of Element-web, allowing users to join with their federated Matrix account or register a new one on our ephemeral server.

We continue to maintain our commitment of privacy-respecting attendance. Thus participants, both in-person and remote, may join either event without entering any personal information.

CODE OF CONDUCT

SeaGL is dedicated to providing a harassment-free conference experience for everyone. To this end, we expect all sponsors and partners to review and abide by our [**code of conduct \(CoC\)**](#). This CoC applies during the entire conference and in any conference associate space, online or otherwise.

Any harassment concerns should be directed to a member of the conference staff immediately. They may be reached year-round by emailing CoC@seagl.org.

PUBLIC HEALTH CONTINGENCIES

We recognize the need to adjust along with global public health issues such as COVID-19, RSV, and other contagious diseases. However, in 2023 we decided that returning to an in-person conference experience was appropriate. In order to give sponsors, attendees, speakers, and volunteers ample time to plan, we will release an update to our [**public health guidelines**](#) at least 6 months before the conference.

By planning ahead, we hope to create a positive, educational, accessible, community-building hybrid conference that matches SeaGL's mission. Accordingly, we will continue to adjust the plan as necessary to meet global health conditions. We will gladly work with sponsors to make suitable arrangements if adjustments are necessary.
