SeaGL

SeaGL is an annual community focused conference supporting free/libre/open source software, hardware, and culture in Seattle.

University of Washington
Husky Union Building

**November
6-7, 2026**

We're seeking presentations that explore the intersections of technology, community, and freedom. If you're engaged in open source, we'd love to hear from you.

Topics

- Community and Culture
- Education
- Hardware
- Languages and Tools
- Cloud and Infrastructure
- Open Source AI and Data Science
- Open Source Careers
- Performance Art
- Security and Privacy
- Systems and Platforms
- Everything Else
